

ALI HUSSAIN ALHANABI

IT Manager | Head of Technology

(+966) 578 535 751 · Ali.H.Alhenabi@gmail.com · alhanabi.com · Khobar, Saudi Arabia

EXECUTIVE SUMMARY

Technology leader with 7+ years owning mission-critical IT for a multi-site fuel-station and retail operation across 200+ locations in Saudi Arabia. Built the IT function from the ground up — including ERP, cloud, cybersecurity, automation, and enterprise networks. Delivered cost savings exceeding 20–25% across major systems. Fluent in translating business problems into practical systems that run reliably at scale.

IMPACT AT A GLANCE

200+ Locations Supported	1,340+ Devices Managed	8+ Systems Built	20–25% Cost Reduction Achieved

PROFESSIONAL EXPERIENCE

IT Manager & Head of Technology | Gas Stations Development Company (Orange)

Feb 2021 – Present · Khobar, Saudi Arabia

- Own the full technology stack for 200+ fuel station and commercial retail locations — ERP, cloud platforms, networks, cybersecurity, and 1,340+ end-user devices.
- Negotiated 20–25% cost reduction on ERP licensing and 15–20% savings across external technology contracts.
- Built and launched 8+ internal systems from scratch including Fuel Command Center Pro, Internal Requests Portal, OrgMap, and a governance documentation platform.
- Led the Cashin fuel automation project deployment covering all active station locations — directly impacting daily revenue operations.
- Documented 200+ station locations on Google Maps, creating the first complete operational location registry for the company.
- Established IT governance including vendor management, contract controls, cybersecurity posture (firewalls, VPN, endpoint protection), and disaster recovery readiness.
- Reduced system downtime by 20% through infrastructure modernization and remote access improvements across all locations.
- Serving as acting project manager for a 3-year British technology contract — stepping in after leadership change to protect delivery and company interests.
- Leading a new real-estate management system project as IT project manager alongside core responsibilities.
- Managing Microsoft Dynamics Business Central ERP across Finance, HR, and Purchasing modules for 70–80 daily active users.

Systems & Infrastructure Lead | Arabian Al-Kanar & Global Technical Services

Jun 2020 – Jan 2021 · Khobar, Saudi Arabia

- Deployed enterprise networks, data centers, and security platforms across multiple client environments.
- Delivered secure remote-site connectivity for 40+ locations.
- Assisted in HR system deployment and maintained core infrastructure requirements.

IT & Mobility Officer | Saudi Paper Group

Apr 2018 – Apr 2020 · Dammam, Saudi Arabia

- Managed IT operations across multiple production and office sites.
- Owned network reliability, security, and access systems supporting manufacturing and logistics.

IT Technical Support Specialist | AL Qahtani Holding

Nov 2017 – Apr 2018 · Khobar, Saudi Arabia

- Provided technical support and infrastructure setup for multi-office environments.
